Date:22/10/2026

To,
Yuwanawellness Foundation

Respected Sir/Madam,
Greetings from SUYOG HOSPITAL, Nashik.

We would like to request financial assistance for **Baby of Waghle Nitin Uttam**, a 12-day-old male preterm neonate weighing 1.4 kg, who was delivered by emergency Lower Segment Caesarean Section (LSCS).

The baby has been admitted to SUYOG HOSPITAL, Nashik, in critical condition and requires intensive neonatal care. At the time of admission, the baby presented with the following clinical conditions:

- Prematurity with very low birth weight
- Convulsions
- Difficulty in breathing (respiratory distress)
- Decreased spontaneous activity

Considering the baby's critical condition, oxygen support was initiated immediately. The baby requires continued (NICU) care, respiratory support, close monitoring, essential investigations, medications, and other supportive treatment as per the treating doctor's advice.

Due to the critical condition and prematurity of the baby, prolonged hospitalization and intensive treatment may be required depending on the clinical response.

Estimated Cost of Treatment

The approximate total estimated cost of treatment is ₹2,00,000/- (Rupees Two Lakhs Only), inclusive of NICU hospitalization, oxygen support, investigations, medicines, and other essential treatment-related expenses.

We humbly request the Yuwanawellness Foundation to kindly consider this case for financial assistance to help the family meet the substantial cost of the baby's treatment.

Your generous support can make a significant difference in providing the necessary medical care to this critically ill newborn.

Thank you

Dr. Mrs. Reena Rathi (Kalantri)
